Summary

PhD candidate in Computer Science and Engineering at Seoul National University, advised by Prof. Gunhee Kim.

Research interests: how language models use external knowledge, including search agents, scientific literature search, retrieval-augmented generation (RAG) for evolving knowledge, and multimodal understanding.

Education

PhD **Seoul National University**, Computer Science and Engineering — Seoul, Korea, Republic of
M.S./Ph.D. integrated student at the Vision & Learning Lab. — Sept 2022 – present
- Advised by Prof. Gunhee Kim.
- Research on search agents, scientific literature search, and RAG for evolving knowledge.

BS **Yonsei University**, Computer Science and Engineering — Seoul, Korea, Republic of
Bachelor of Science in Computer Science and Engineering. — Mar 2018 – Aug 2022
- Graduated with top rank in the department.

Experience

UC Berkeley, Visiting Researcher — Berkeley, CA, USA
Hosted by Prof. Sewon Min. — Oct 2026 – present

LG AI Research, Superintelligence Lab, Research Intern — Seoul, Korea, Republic of
Worked on agentic reasoning and retrieval systems for large language models. — Mar 2025 – Sept 2026
- Developed Hybrid Deep Searcher, a search agent that integrates parallel and sequential search reasoning (ICLR 2026).
- Analyzed how search agents conclude tasks with unverified constraints (COLM 2026 Workshop).
- Built CompLit, a scientific literature search benchmark for implicit, cumulative, and unmet needs.

Publications

CompLit: Scientific Literature Search Benchmarks Must Cover Implicit, Cumulative, and Unmet Needs — Oct 2026
